Comcheck Web creates an online Comcheck report has 10-18 pages.

Comcheck Web output file type is a PDF format.

Comcheck Web can take an input file of .cxl or an .cck which are both specialized Comcheck reporting file designations.

Comcheck Web online Comcheck creation software is well maintained and will experience 10-14 hour maintenance sessions, 4-6 times per year.

Comcheck Web contains more energy codes and receives updates to the newest ASHRAE energy codes, IECC energy codes, state specific energy codes, and software updates prior to the offline version of Comcheck creation software Comcheck desktop.

<https://www.rescheck.info/2022/09/12/comcheck-desktop-download/>

Comcheck Web is free of usage fees for do it yourself or DIY Comcheck creators.

Comcheck online will point out areas a commercial structure that do not meet the relevant state specific, IECC, or ASHRAE energy codes and show areas that need attention.

<https://www.rescheck.info/2022/07/12/how-to-log-in-to-comcheck-web/>

Overall creating a Comcheck online is very similar to creating a Rescheck online. Comcheck is used for commercial structures and Rescheck is used for residential structures. In the head to head matchup of Comcheck online versus Rescheck online who wins? Comcheck online would be given the prize simply because it looks at more areas of a standard construction project than a Rescheck online. With the Comcheck you get a chance to look at envelope, interior lighting, exterior lighting, and mechanical. The Rescheck online mainly focuses on envelope. For this reason we give Comcheck online the win in this discussion of Comcheck online versus Rescheck online.

Both Rescheck online and Comcheck online are great ways to check the energy efficiency of your residential or commercial structure. If you need either we can do it. Email pdf plans, jobsite address, or square footage to [service@rescheck.info](mailto:service@rescheck.info) and we will get you taken care of.
